七. 閱讀測驗

This morning, many people were surprised to see a robot waiter when they got to this coffee shop. We interviewed some of the customers there. Here are what the customers said.

Peter: I was happy to see the robot. It always smiled when it talked to me. It was knid and just like us. I mean it has a nose, a mouth, eyes, arms and everything except hair. It looks cute, anyway.

Mr. Wang: My kid became crazy when he saw the robot. It was nice because he could have fun with the little white guy when I enjoyed a cup of coffee.

Tina: I am glad the robot only welcomes us at the door. It doesn't make coffee for us. A robot can never make good coffee. Only men can.

Amy: It's strange to talk to a robot. Don't they have enough waiters or waitresses? Or they just don't want to pay for the salary?

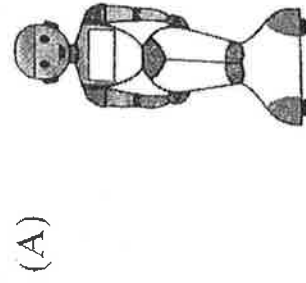

Eric: It's nice to have this kind of robot in the coffee shop. Sometimes I want to learn things about coffee or coffee beans, and the robot has good knowledge of them, and it's not in a hurry.

Richard: The whole thing is crazy. I felt nothing when shaking hands with it. It didn't understand me at all, either. It always gave me wrong answers! Robots can never take people's job.
